Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The indicated allowability of claims 4-6, 8, 9, 13-17, 19 and 20 is withdrawn in view of the newly discovered reference(s) to Broderick (GB 2 184 615). The finality of the last Office action is also hereby withdrawn. Rejections based on the newly cited reference(s) follow.

Specification

2. The disclosure is objected to because of the following informalities: on page 3, line 8, "grove" should read --groove--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 recites the limitation "the ring" in lines 1-2 . There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 4-6, 8, 9, 13-17, 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Broderick.

Broderick discloses a cable housing 7 for use with a connector 1 wherein cables in the housing are provided with identification markings such as color coded wires (page 1, lines 45-51), the clamp including a transparent portion through which markings of interest are visible (page 1, lines 51-54 and 91-95). Although Broderick does not disclose the transparent portion of the housing being a ring arranged in a groove of the housing, it would have been obvious to one of ordinary skill in the art at the time the invention was made that having the transparent portion as a ring, a ring in a groove, or a rectangular window is an obvious matter of design choice wherein no stated problem is solved or unexpected results obtained in having the transparent portion be a ring, a ring in a groove or a rectangular window versus the transparent portion taught by Broderick as long as the marking of interest are readily visible through the transparent portion. Furthermore Broderick's housing appears to be simpler to manufacture and as such would be less costly to produce. Applicant should note that the housing disclosed

by Broderick is structurally equivalent to the claimed strain relief clamp and could be transparent in a selected area (page 1, lines 55-57).

Allowable Subject Matter

7. Claims 7 and 10-12 are allowed.
